

Biography: Dr Felicity Park

Dr Park is an Obstetrician and Maternal Fetal Medicine specialist working within Obstetrics, Obstetric imaging and Maternal Medicine. She is the Director of Maternal Fetal Medicine at John Hunter Hospital, Newcastle Australia and is a Conjoint A/Prof at The University of Newcastle. Dr Park graduated from The University of Sydney and has held training and clinical positions within Australia and overseas. She continues to share her passion for obstetrics and imaging by actively participating in the education of specialist trainees, junior medical staff, and students.

Dr Park has over 20 years of experience in Obstetrics and Gynaecology imaging. She completed her PhD in preterm preeclampsia and fetal growth restriction. Dr Park's research focusses on prevention of Obstetric complications through prediction and prevention. She is involved in ongoing research with collaborations through Hunter New England Health and The Hunter Medical Research Institute (HMRI). Dr Park is the Australian Medical Association representative for the Hunter region.

During her career Dr Park has worked throughout Australia and overseas including providing remote outreach Obstetrics and Imaging services. Dr Park commenced outreach ultrasound teaching in the Pacific in 2023. She has ongoing collaboration with WFUMB Centre of education in Fiji and The Obstetric Department at Colonial War Memorial Hospital, Suva, Fiji.
