

Biography: Dr. Nidhi Leekha

Dr. Nidhi Leekha is an Assistant Professor & Consultant Radiologist, and Section Head of Ultrasound at Aga Khan University Hospital, Nairobi. She is the Vice President of the Mediterranean and African Society of Ultrasound (MASU) and the Chairwoman of the Kenya Society of Ultrasound in Medicine & Biology (KESUMB).

With a strong academic background in radiology, Dr. Leekha is dedicated to advancing ultrasound education and accessibility, particularly in resource-limited settings. She is actively involved in research and training initiatives, including projects leveraging artificial intelligence for obstetric ultrasound and maternal health. Additionally, she serves on the Global E-Learning and Congress Committees of the World Federation of Ultrasound in Medicine and Biology (WFUMB).

Dr. Leekha has a special interest in fetal medicine, contrast-enhanced ultrasound, and ultrasound education. She has contributed to national curriculum development for point of care ultrasound and e-learning for ultrasound education and has led multiple workshops and lectures on ultrasound applications in various clinical scenarios.
