

BIO:
Dr Pankaj Gupta

Pankaj Gupta is a Paediatric Cardiologist with clinical and research interests in Paediatric cardiovascular diseases. He is currently working as a Consultant Paediatric Cardiologist at the Royal Hospital for Children, Glasgow, UK. He has a special interest and expertise in cross-sectional cardiac imaging (Advanced Echocardiography and Cardiac MRI). He has previously worked as a Consultant Cardiologist at the Starship Children's Hospital, Auckland and the Perth Children's Hospital, Western Australia.

After obtaining his fellowship in Paediatric Cardiology and Cross-Sectional Imaging (FRACP, Australia) Pankaj has completed his advanced training in Cardiac MRI at various international centres, including Boston Children's Hospital. Pankaj has obtained advanced accreditations in Paediatric Cardiac Imaging from Europe and USA. He is an avid researcher and has obtained MPhil in

Cardiovascular research from the University of Sydney. He is quite passionate about clinical governance and leadership in healthcare and has obtained a Master of Health Management from the University of New South Wales, Sydney. He is a strong advocate for safe, high-quality and family-centred patient care. He has a keen interest in academics and has served as a Senior Clinical Lecturer at the Universities of Western Australia, New South Wales and Auckland.
