

Biographies:

Christina White

Christina comes from a radiography background and completed the DMU (General) in 2002. She has always loved the areas of paediatric (particularly neonatal) and obstetric ultrasound. Currently she has her dream job, a combination of working at both Perth Children's Hospital (PCH) and King Edward Memorial Hospital (KEMH) for the Women and Newborn Health Service (WNHS). Christina is a senior sonographer at both sites and acting tutor sonographer at PCH.

Dr Rahul Lakshmanan

MBBS, FRANZCR

Rahul graduated from the University of Western Australia's Medical School in 2007. He commenced his radiology training locally in the WA Radiology Training Scheme in 2010 and completed his registrar training in 2015 when he was awarded FRANZCR. He completed a two-year Neuroradiology fellowship in London in February 2017, where he trained in both adult and paediatric neuroimaging at the National Hospital for Neurology and Neurosurgery, Imperial College Healthcare Trust and Great Ormond Street Hospitals. Concurrently he was a Consultant Radiologist at Everlight Radiology in London from 2015 - 2017. Rahul returned to Perth in early 2017. He is a Consultant Radiologist and one of the Neuroimaging Specialists at Perth Children's Hospital. He became a partner of Perth Radiological Clinic in 2021.

He specialises in Adult Neuroradiology, Paediatric Neuroradiology, and Paediatric imaging

Leanne Lamborn

Leanne Lamborn has been a Supervising Sonographer for Perth Children's Hospital since 2010. Initially graduating from Curtin University with a Bachelor of Science (Medical Imaging Technology) with First Class Honours, she obtained her Graduate Diploma in Sonography from RMIT.

She began her clinical career in paediatrics in 1999 originally as a radiographer at Princess Margaret Hospital, followed by sonography. These initial years cemented her passion for paediatric radiology. She took a short break from the dedicated paediatric centre while completing her ultrasound training, returning in 2007. Leanne has run a workshop in Neonatal Spine Imaging, presented a Paediatric MSK Webinar for ASA, and delivered a Neonatal Head Ultrasound talk for a private practice. She has run the main Paediatric Hip Clinic since 2016 for the Children's Hospital in conjunction with the orthopaedics department.

Leanne has over 22 years' experience in paediatric imaging/sonography having been employed at Perth Children's Hospital/Princess Margaret Hospital since 1999. She has a strong interest in neonatal sonography including Neonatal DDH ultrasound and has been a member of the ASA Paediatric Committee since its inception in 2012. Leanne was awarded the ASA WA Sonographer of the Year in 2021.

Dr Fariza ABU HASSAN

Fariza graduated from the University of Melbourne in 2007 and completed radiology training in Western Australia in 2016 gaining fellowship with the RANZCR. She has subsequently undergone subspecialty training in abdominal radiology at the Royal Perth Hospital and paediatric radiology at the Royal Children's Hospital in Melbourne, Princess Margaret Hospital and Perth Children's Hospital. She is a Consultant Radiologist at the Perth Children's Hospital, King Edward Memorial Hospital for Women and Children and works privately at SKG Radiology.
