

## Upper Limb MSK Workshop Faculty Biographies

**Andrew Spurrier** is the Director of Clinical Ultrasound and Training Services and is a Specialist Senior and Consultant Sonographer working in both private practice and public hospital settings. He has presented at numerous local, state, national and international meetings and the author and co- author of several papers for over 38 years. He is passionate about delivering high quality care and practicing good medicine and shares specific interests in Rheumatology, Musculoskeletal, Interventional and Neuro-vascular ultrasound and clinical / ultrasound education.

**Peter Esselbach** is a specialist MSK sonographer with over 30 years' experience. He has worked within private and public radiology clinics in SA and QLD. He presently works at Fowler Simmons Radiology and Radiology SA in Adelaide. He also works as a Musculoskeletal Physiotherapist in a private practice in Adelaide and enjoys sharing his passion for MSK ultrasound through teaching other health professionals.

**Asif Miah** has over 17 years' experience in medical imaging with a history of public, private, emergency, point of care, commercial (application specialist), ex radiographer, general sonographer, team leader, and management roles. He strives to learn and challenge himself and provide best patient care using his skills and knowledge and as a team member to his surrounding colleagues. Asif's most recently acquired skill sets are point of care ultrasound and performing ultrasound guided cannulas. Outside of work he enjoys playing social soccer, gardening, and being a family man.

**Nathan Armstrong** has been a sonographer for 9 years and trained in Australia. He has worked in the UK for 2 years within the NHS as well as in regional and metro private and public settings in Australia for the last 7 years. Nathan has a special interest in musculoskeletal and vascular ultrasound. Outside of work, he enjoys tennis, Aussie Rules, and live music.
